Conclusion: At a current market price of ₹268.00, ITC Ltd trades at a 1.20x premium to its intrinsic fair value of ₹223.60. The valuation incorporates a fading growth rate (13.79% tapering linearly to a 2.50% terminal growth rate), a stable cost of capital (10.47%) anchored to long-term target capital weights, and adds back ₹38,128 Cr of standalone investments (current and non-current, per Notes 4 and 9) as non-operating assets not captured within EBIT.

Notes

- Linear fade from Start Growth Rate to Terminal Growth Rate over the 5-year explicit forecast, avoiding a discontinuous jump into the terminal value calculation.
- Investment includes both Non-current (₹19,409 Cr, Note 4) and Current (₹19,702 Cr, Note 9) Investments — treated as non-operating financial assets since related income is excluded from EBIT.

Debt to Equity	0.69%	0.69%
----------------	-------	-------

Note on Capital Structure: WACC weights are hardcoded to management's long-term target capital structure (~99.3% Equity / 0.7% Debt). This framework is intentionally unlinked from the dynamic intrinsic value of equity to prevent circularity and to reflect the steady-state capitalized profile of the firm.

Notes

1. For calculating net Working Capital, Operating approach has been used

2. Historical figures for FY25 (Mar-25) reflect the ITC Hotels demerger, completed during that fiscal year — PP&E, working capital, and associated revenue/EBIT were transferred out mid-year (per Company's FY26 Annual Report, Note 3A). Excluding FY25 from the growth calculation, the four-year median growth rate is 15.64%, versus 13.79% used in this model (which includes the demerger-affected year) — a ~1.85pp difference. This suggests the demerger year meaningfully depressed the calculated organic growth trend, and the Start Growth Rate used here may be conservative relative to a clean continuing-operations basis.

Notes:

The weight for adjusted beta taken from Bloomberg 2026 data.

The comps tax rate has been calculated by Tax Amount/EBT for last Year

Standalone Blume-adjusted beta (0.90) used rather than peer-comps beta (0.95), as ITC's diversified conglomerate structure (cigarettes, FMCG, agri, paperboards) makes pure-play FMCG peers imperfectly comparable.

SOTP Methodology Note

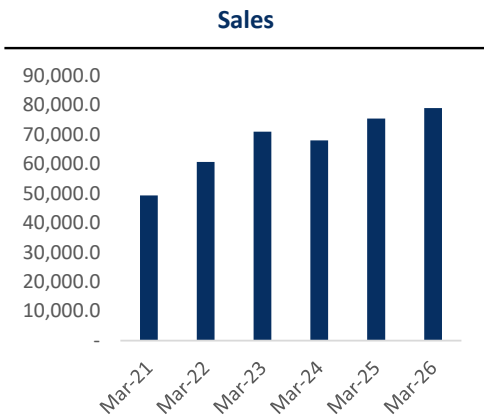

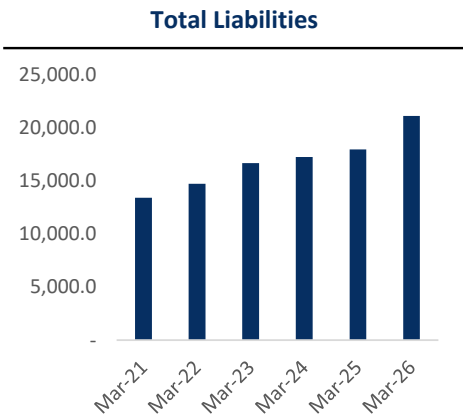

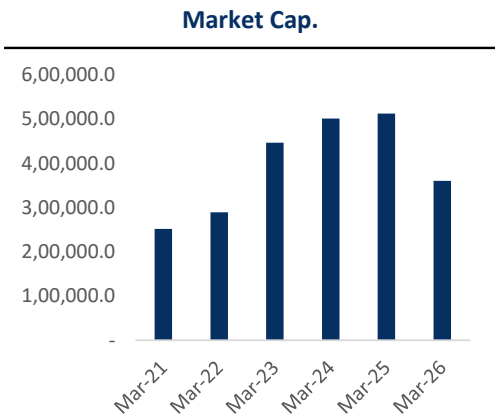

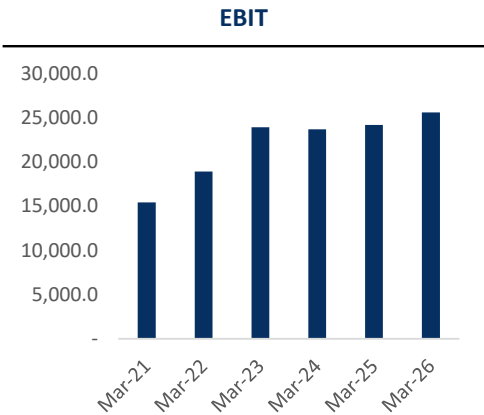

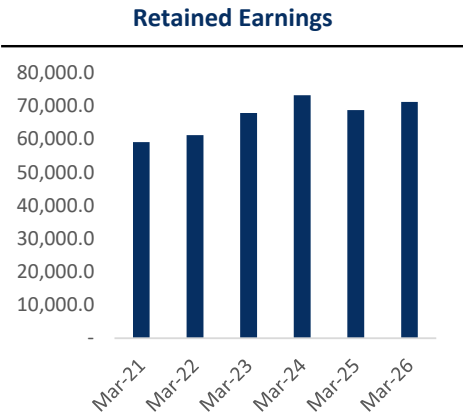

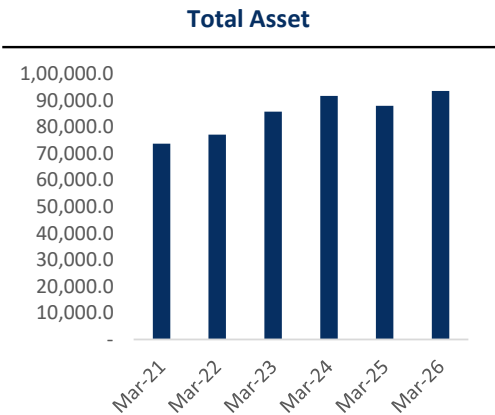

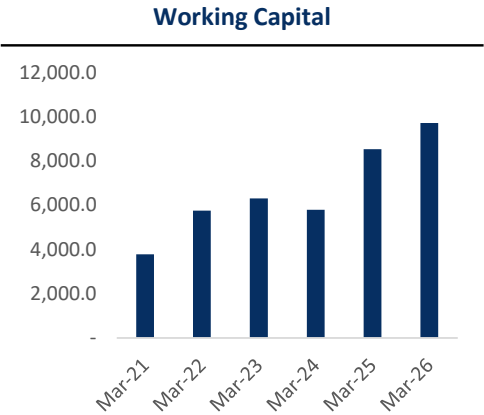

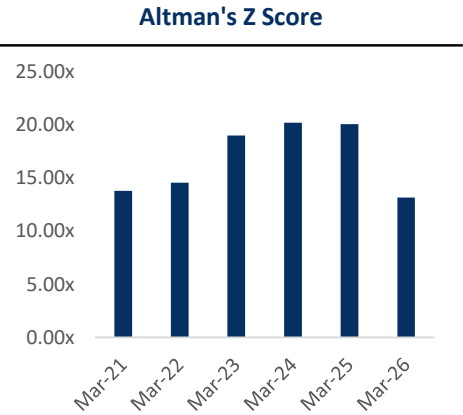

Basis: Segment Revenue/EBIT/D&A from ITC FY2026 Annual Report, Note 30.

Method by segment:

1. Cigarettes — EV/EBITDA 16.1x (Godfrey Phillips, sole peer). Stable, high-margin.
2. FMCG—Others — EV/Sales 7.6x (median: HUL, Nestlé, Britannia, Marico, Godrej Consumer, Dabur, Colgate). EV/Sales used, not EV/EBITDA, since segment EBITDA margin (~10%) is depressed by brand-building/gestation costs per the segment note — not representative of steady-state profitability. Alcohol/bottling/tea peers excluded (no equivalent business in this segment).
3. Agri Business - EV/Sales 0.30x (AWL Agri, sole peer), applied to external revenue only - excludes inter-segment leaf-tobacco transfers to Cigarettes.
4. Paperboards — EV/EBITDA 8.28x (median: JK Paper, West Coast Paper, Seshasayee). Andhra Paper excluded — outlier multiple from temporarily depressed earnings, not a real premium.
5. Others — Net segment assets (₹159.71 Cr); EBIT negative and segment immaterial (<0.5% of revenue).
6. Unallocated corporate cost: ₹1,228.83 Cr capitalized as a perpetuity ($\text{Cost} \times (1 - \text{Tax}) / \text{WACC}$), not subtracted once, since it recurs indefinitely. Tax and WACC linked to the same DCF assumptions.
7. Limitations: Cigarettes and Agri each rest on a single peer. Sensitivity testing shows Cigarettes drives the output materially ($\pm 30\%$ multiple $\sim \pm ₹80-90/\text{share}$); Agri is immaterial (<₹1/share) due to its small scale. WACC/Tax swings affect the output by <1%.
8. vs. DCF: SOTP (₹455.6/share) exceeds DCF (₹223.60/share) because DCF applies one blended growth/discount profile to segments with very different real profiles (mature Cigarettes vs. early-stage FMCG—Others). Read as a conglomerate-discount signal, consistent with the ~41% gap to current market price — not a contradiction between methods.
